**LETTER OF SUPPORT**

**THE GLOBAL STONE PROJECT**

This letter is an indication of support for the Global Stone Project by Wolfgang Kraker von Schwarzenfeld. Wolfgang has already erected stones in other parts of the world where they have been well received as a symbol of hope and peace and his efforts represent considerable personal sacrifice and creative endeavour.

I know there is some concern about the use of the five point star but would suggest that the contexts in which this star have occurred have been diverse and various from the Pythagorean five point scale to the stars in the American flag. It has also been used in Pop Art and most famously by Leonardo da Vinci.

I wish Wolfgang everything of the best with his project and hope that the City will facilitate its successful realisation.

A handwritten signature in cursive script that reads "Pippa Skotnes".
